“ Dear sister.  
Oh how i thought you would be here with me forever so many things have changed since you left me no more 3 eggs over easy with white toast or chinese dinners for lunch or random noodles and butter during the night when you needed a quick snack i sure miss our talks and you telling me your secrets of how to grow flowers. I was just outside tending to your things putting them away for winter. Mom struggles everyday with your passing shes crazy with her walker running stuff over she talks alot about you and is sad but i try to keep her going its hard but we keep going. Christmas wont be the same but we got special trinkets you left behind for us I miss you so much love you your little sister Ride on
