“ *Carol helped me so much at Perrigo, and I still use what she taught me. There were so many things to learn, she would say "don't make it harder than it is" and "think about what you are trying to do". And she had that look that made me want to work harder so that look would turn into a smile. It did. I'm glad I had a chance to let her know before she retired, that I could hear her telling me those things all the time. It made her laugh. She made it look easy and did so much for everyone. Prayers and deepest sympathies to her family.*
