“ My sincere condolences and prayers are being sent to the family and loved ones of Mr. Sutherby. He was one of my teachers during my studies at Gobles Public Schools. He was one of my favorites and he often had some insight on certain subject content, that would engage me as a student, to retain what was being taught! Many laughs and many great conversations with him. May he rest in peace, and his family know, that for me, he made a difference in my life as a positive influence and mentor! God bless.....your Dad was amazing as a teacher!

“ I really enjoyed Mr.Sutherby, a unique enduring guy. I was the only girl in Gobles high school chemistry class and generally good behavior. I have to admit I don't like chemistry and in high school I thought I just don't get it. But when I took college chemistry I realized I GOT IT, and it was all due to Mr. Sutherby giving me a great headstart. Thanks Mr. Sutherby may you rest in peace with the Kreb cycle.

Mr. Sutherby was indeed a unique person. He was most helpful and encouraging in Chemistry and Physics classes which were truly not my area of interest. In an instant of an accidental splash of acid, he immediately knew what to do in that case of emergency. He allowed students to pursue deeper into areas of interest. He certainly taught and lived the life lessons integrity, honesty and responsibility. Thank you, Mr. Sutherby.
