“ *I have many special memories of Elaine and time spent at the lake. She taught me (and some of my siblings) to swim and dive. She was so good at instilling confidence along with teaching you the needed skills. I'll always remember her telling us that the slimy weeds in the lake were really just "beautiful water flowers"! I also remember being amazed that she could swim across the lake and then back!!! May your wonderful memories bring you comfort now and in the coming days.*

“ I first met Elaine when I was trying out golfing. It was her, Barb Fox, and my friend Betty Fox, and I. We laughed the whole way through 8 holes, with a few stops behind the bushes! After a few years, was reconnected through Pine-Dale ambulance. She was a very kind, loving person, and not afraid to tell it the way it was! Will cherish my memories of her forever! Rest in peace Elaine, you truly deserve it.

“ When I first met Mom, I was just dating Bill. I was staying at my Folks place by myself. When she heard of that, she insisted I stay with them. She was so excited that her Son got married. She said she had a raffle and I was the only one to enter. I Won!!! Never a regret to have won. We gave her 2 more Grandchildren and 5 Great Grandchildren. Taught them how to swim, took Heather and Billy surf boarding when they were just 3 years old, and fishing off the dock, so much she had done for us. Thank you Mom for all the great memories that we will cherish forever. Rest in peace with all our Angels in Heaven.

“ The memories at the lake with Grandma and Grandpa Hutch will be cherished forever. Once we were old enough to hold a fishing pole it was Kristy, my self, Heather, and Billy on the end of the dock with Grandma teaching us to put our own worm on and to cast without hooking one another. Then once the bucket was full we all sat around the picnic table and learned to fillet and skin the fish so there were no bones. Then we played "it" around the raft and swam down to Haley's high dive. I will never forget going turtle hunting and filling the row boat with painter turtles. When I heard that familiar loud whistle I new i better start rowing back. When I arrived Grandma was waiting on the pier and noticed I had 30 or 40 turtles surrounding me. Then the hard part came where Grandma had to convince me to let them all go. We had many fun pontoon boat rides and enjoyed alot of mushroom pizzas in the cove. Thank You Grandma for all of the wonderful memories, for showing us neverending love and the importance of Family. I Love You, Kim

“ my childhood summers are filled of memories of Grandma Hutch. Playing "it" around the raft, fishing, turtle hunting, swimming across the lake, learning to ski, and learning to swim. The best thing I learned is how to be a genuinely good person without expecting anything in return.

“ My dear sweet "annie Lane", I will never forget all you did for me. Swimming across the lake. Fishing, and teaching me to water ski. I loved fishing and then after a long day out. You would say hey guys where you going that is where you taught me to fillet a fish and you made the fish taste so good with milk and crackers. I love the fish that way. We had so much fun at the lake in the winter with all that snow. You really knew how to make us all feel very welcomed and making smores, or watering the lawn to make the nightcrawlers come out. I remember picking blueberries with you. You said "Johnny its a good thing they didnt weigh you before we picked" they were so good n fresh. I also remember going to sherman's dairy for ice cream. I remember when my sister smashed your turtles. Wow my aunt was so special to me. You are with the lord now and uncle don, my dad, y'all are most likely playing cards. Love you my "annie Lane.
