She treated me like a son..when she set the table morning noon or night there was always a place for me. When the family went on vacation I was always to be a part and often did..trips to the Enchanted Forrest ..down south to visit...I earned my share when we worked in the fields...digging up taters or picking berries we all worked as a family..that I was accepted as part of for other reason than it was in her heart to love ..I carry her memory in my heart and in turn have lived lime she showed me even when I had no clue I was ..love you mom

“ *One of my favorite memories with grandma. I loved sitting outside on the swing with her on a nice day. She would always share her coffee with me. It was the best. I felt just like a grown up. Drinking coffee and talking to her about anything.*

“ I have so many memories I would love to share of this wonderful woman. One of my favorite things was that she would send Casey on a late night run to get ice cream and root beer so we could all sit in the living room and have root beer floats together. We love you and miss you grandma.

“ My favorite memory of my grandma was as a child she would take me and my two cousins every summer out looking for wild strawberries around our home. When we would get up enough she would cover them in sugar and milk. That's one thing I will always carry on and do with my child. Love you grandma
