“ *Dr. Lorenz was way ahead of his time in treatment and service when it came to the medical field. As our family doctor he had the foresight to limit the prescription drugs. He was way ahead of his time in compassion and love of service to each of his patients. He will live on forever in the memories of those that knew him.*

Dr. Lorenz was our family physician for years until we moved out of the area in 95. He took care of my mom, then me and also my children. He was a great Dr. very caring and nice. He is the only Dr. that showed me how to get rid of migraines with a simple pressure point at the base of the skull instead of throwing medicines at me. He will be missed, prayers go out to the family from my family.
