“ I'm heart broken for his family, he was like dad to me at Ritsema Associates, he taught me so much over the years and helped me to become the foreman I am today. For that i will be forever grateful for what Travis has done for me and my family to teach me a craft to provide for my family is eternal, as now my children will grow up and pass on what I've learned from him and taught them because of Travis. We also shared many experiences at Nascar events that I may have never explored if it wasent for him inviting me and my wife to go along with his family. He was such a hard worker always giving 110% I hope someday to be half as good as he was thanks so much buddy I love you and will se you again some day RIP Trav!
